Jack Pine		397		
Scrub Oak*		122		

TRACT 46-22 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:

1. Harvest unit A has a coppice prescription with an estimated average residual basal area of 4 ft².

B. HARVEST REQUIREMENTS:

1. In unit A, harvest all unmarked hardwood stems 2 inches and greater and all merchantable jack pine stems.
2. In unit A, leave all conifer except jack pine and all purple marked hardwood.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:

1. Sale boundaries consist of red paint line, roads or abrupt timber type changes to red pine plantations.
2. Whole tree harvesting and/or utilization of tops (≤ 4 " diameter) will not be allowed.
3. Do not cut snags except for individuals that pose a safety hazard.
4. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.

D. ACCESS AND ROADS:

1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:

1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
2. This sale includes 6 trees that are marked with purple paint "X". Operator must fell and leave all trees marked with purple paint "X". "X" marked trees should be cut 5 ft above ground level and should lie as close to the high stump as possible. These trees will create ruffed grouse drumming habitat.
3. Utilization specification is to a 4" top. However, if the County determines that pulpwood markets continue to be very poor at the time of harvest the County will sign a contract amendment with the purchaser changing the utilization specification to a 5" top for selected species. When determining condition of the market, the County will pay particular attention to the amount of wood being purchased by the mills in Wisconsin Rapids and any other significant shifts in wood demand.
